Part Number _____ Exp. Date _____
(if CNG tank)

Product Type _____
(BOC Module, Frame Rail, Slave, CNG tank, other pls describe)

Serial Number _____

Part Number _____ Exp. Date _____
(if CNG tank)

Important information

Your Quantum gaseous fuel cylinder is required to be inspected at least every three (3) years or 36,000 miles (60,000 km). The frequency and level of inspection may vary based on state and local requirements or may need to be increased based on the operating environment of the cylinder. Information related to cylinder installation, maintenance and service can be found at <http://www.qtw.com/warranty>. Use of a cylinder beyond it's published expiration date is not safe. Please advise your customer to keep this information with the vehicle.

Submit your registration by email to: QTWarranty@qtw.com
